

LE CABINET

The image contains two diagrams of rectangles, each with dimensions in inches and feet, and an area in square feet.

Left Rectangle:

- Width: 15"
- Height: 18"
- Area: 1.8ft^2
- Internal width: $14\frac{1}{2}"$
- Internal height: $17\frac{1}{2}"$

Right Rectangle:

- Width: 15"
- Height: 24"
- Area: 2.4ft^2
- Internal width: $14\frac{1}{2}"$
- Internal height: $23\frac{1}{2}"$

PARTITIONS AND DIVIDERS

Figure 1 illustrates the binning procedure for different numbers of bins. The diagrams show a 10x10 grid being divided into a specified number of bins. The number of bins increases from left to right: 12, 15, 18, 21, 24, and 30 bins. The 30-bin configuration is a uniform 6x5 grid. The other configurations show varying degrees of non-uniformity in the bin sizes.

Number of Bins	Grid Configuration (approximate)
12 BINS	3x3 grid with 3 additional bins on the right
15 BINS	3x3 grid with 6 additional bins on the right
18 BINS	3x3 grid with 9 additional bins on the right
21 BINS	3x3 grid with 12 additional bins on the right
24 BINS	4x4 grid with 8 additional bins on the right
30 BINS	6x5 grid

The diagram illustrates the three layers of the container:

- PVC LINER (L_BD-J0403):** The bottom layer, shown as a solid grey rectangle.
- PROTECTIVE FOAM (L_BD-J0103):** The middle layer, shown as a white rectangle with a black border.
- TOOL FOAM (L_BD-J0203):** The top layer, shown as a white rectangle with a black border, containing icons of various tools (wrench, screwdriver, hammer, and pliers).
