

LE CABINET

The left diagram shows a rectangle with a width of 15" and a height of 18". The area is labeled as 1.8ft². The width is divided into segments of 3, 5, 6, 7.5, 9, 10, and 12. The height is divided into segments of 3, 6, 9, 12, and 15. The dimensions are also labeled in feet: 17 1/2" for the width and 14 1/2" for the height.

The right diagram shows a rectangle with a width of 15" and a height of 24". The area is labeled as 2.4ft². The width is divided into segments of 3, 5, 6, 7.5, 9, 10, and 12. The height is divided into segments of 3, 6, 8, 9, 12, 15, 18, and 21. The dimensions are also labeled in feet: 23 1/2" for the width and 14 1/2" for the height.

PARTITIONS AND DIVIDERS

Figure 1 illustrates the binning procedure for different numbers of bins. The diagrams show a 10x10 grid being divided into a specified number of bins. The number of bins increases from left to right: 12, 15, 18, 21, 24, and 30 bins. The 30-bin configuration is a uniform 6x5 grid. The other configurations show varying bin sizes and shapes, with some bins being larger than others.

Number of Bins	Grid Configuration (approximate)
12 BINS	3x3 grid with 3 additional vertical bins on the right
15 BINS	3x3 grid with 3 additional vertical bins on the right, and 1 additional horizontal bin at the bottom
18 BINS	3x3 grid with 3 additional vertical bins on the right, and 2 additional horizontal bins at the bottom
21 BINS	3x3 grid with 3 additional vertical bins on the right, and 3 additional horizontal bins at the bottom
24 BINS	4x3 grid with 3 additional vertical bins on the right
30 BINS	6x5 grid

The diagram illustrates the three layers of the container:

- PVC LINER (L_BD-J0403):** The bottom layer, shown as a solid grey rectangle.
- PROTECTIVE FOAM (L_BD-J0103):** The middle layer, shown as a white rectangle with a black border.
- TOOL FOAM (L_BD-J0203):** The top layer, shown as a white rectangle with a black border, containing icons of various tools (wrench, screwdriver, hammer, and pliers).
