

# Multi Family Apartment Package Pick Up Lockers

## Customer Download Spec Sheets

This downloadable packet summarizes the four custom smart locker package configurations for multi family apartment complexes. Each package includes an integrated kiosk, first year of SaaS, mobile app capability, resident notifications, and integration-ready software options.

| Package     | Openings | Overall Size (W x D x H) | Starting Price |
|-------------|----------|--------------------------|----------------|
| 20 Opening  | 20       | 49.5" x 24" x 80"        | \$14,500       |
| 36 Opening  | 36       | 97.5" x 24" x 80"        | \$22,500       |
| 50 Opening  | 50       | 129.5" x 24" x 80"       | \$28,500       |
| 100 Opening | 100      | 209.5" x 24" x 80"       | \$49,500       |

Note: Freight and installation are quoted separately. Optional temperature-controlled compartments, insulated food delivery lockers, and remote locker management are available based on project requirements.

## 20 Opening Multi Family Apartment Package Pick Up Locker

This 20 opening multi family apartment package pick up locker helps apartment complexes, student housing, and residential communities organize deliveries, reduce package room clutter, and provide residents with a self-service way to retrieve packages. Residents can receive package notifications and pick up deliveries through the smart locker system, while property managers benefit from better tracking, fewer package handling issues, and a more modern resident amenity.
