DataCare Media Inserts

Vulnerable to excess heat and moisture, your magnetic computer media needs additional protection even when stored in an insulated file or safe, where the internal temperature can reach as high as 350°F and humidity levels can reach 100%.

- ▶ Certified protection for all media types, including removable hard drives
- ▶ DataCare Media Inserts are designed to work with any Class 350-rated insulated file or safe to provide an environment that will keep your data protected
- ▶ Extra insulation and special moisture barriers keep the insert's internal temperature below 125°F and the humidity level below 80% during the 1700°F — 1-hour fire test
