

Quick Access Rifle Safes Specification Sheet

SMS-05-V10-QVR

The gun safes series are designed to securely store weapon(s) while providing fast access in case of an emergency. Due to the compact foot-print, the safe can be located anywhere a weapon may be needed in case of an emergency.

The security of the QVR Series is unparalleled due to the patented locking mechanism located in the base of the unit. A biometric keypad allows access in less than 4 seconds.

Specifications

Dimensions: 50"H x 15" W x 15" D (total footprint is 15" x 15") Weight ~200 pounds

Keypad & lock: Securam

Construction & finish: Steel & powder coated

Bolt down capability: Yes

Capacity: **1** long rifle, **2** to **6** hand guns + accessories
