

Retail Order Pickup Smart Locker Spec Sheets

Retail Order Pickup Smart Lockers - Customer Download Spec Sheets

This downloadable packet summarizes four standard retail order pickup smart locker package configurations for buy online pick up in store programs. These locker systems help stores organize pickup orders, reduce service counter congestion, and give customers a secure self-service way to retrieve purchases. Each package includes an integrated kiosk, first year of SaaS, mobile app capability, text and email notifications, and integration-ready software options.

Package	Openings	Overall Size (W x D x H)	Starting Price
20 Opening	20	49.5" W x 24" D x 80" H	\$14,500
36 Opening	36	97.5" W x 24" D x 80" H	\$22,500
50 Opening	50	129.5" W x 24" D x 80" H	\$28,500
100 Opening	100	209.5" W x 24" D x 80" H	\$49,500

Note: Freight and installation are quoted separately. Optional temperature controlled compartments, insulated lockers for food delivery, vending lockers, asset lockers, rental lockers, and remote locker management are available based on project requirements.
