

FIFO Shelving Specification Sheet

SMS-81-SRJ1F

SRK1F-EE750502*

When ordering, model numbers must be completed as follows:

EXAMPLE : **S R** **1F-EE750401**

	Standalone Unit	Starter Unit	Add-on Unit	Ending Unit
BOLTED uprights	J	D	A	C
WELDED uprights	K	E	B	G

Example: **SRJ1F-EE750401**

For an independant model, with perforated surface posts and bolted, open uprights, 36" wide, 24" deep, 75" high and four sloped shelves.

NOTE

It is possible to replace an SH27 sloped shelf with a SH20/21 right-angle BOX shelf, see page 94.

FIFO Open Shelving

Starter

Add-on

Ending

Shown here are several of the most popular shelving models.

Proposals include open uprights and sloped shelves;

Proposals include two dividing guides per shelf. The guides can be adjusted in 1 1/2" increments c/c;

The shelves have perforations for SH52 dividers and SH57 guides in 1 1/2" increments c/c. Extra perforations have been added on each side for aligning an SH52 divider or an SH57 guide with the side of the post (this part acts as a side edge and prevents interference between stored items and the post);

SH52 dividers are available for 18" and 24" deep shelving only;

Possibility to replace a sloped shelf with a right-angle BOX shelf;

Proposals include single or double corner gussets (depending on configuration).
