

## Attic Storage Lift Specification Sheet

Motorized attic storage lifts move heavy storage items between the garage and attic without carrying boxes up ladders. These lifts provide a safer way to store seasonal items, storage bins, and bulky equipment while maximizing attic storage space.

Specification	Details
Model	Attic Storage Lift
Lifting Capacity	Up to 400 lbs
Available Platform Sizes	20.75" x 44" 28.75" x 56"
Max Travel Distance	Up to 22 ft
Operating Voltage	110V / 120V
Transmitter	433.92 MHz
Electrical Cord	10 ft / 16 gauge / NEMA 5-15
Minimum Circuit Size	15 amp
Frame	T slotted framing rail
Frame Material	6105 T5 aluminum alloy
Decking	3/4" thick oak plywood 5 ply
Motor Type	IP44 T Motor
Rated Power	235 W
Rated Current	2.2 A
Voltage Phase	100-120V AC Single
Tube Diameter	70 mm (2-3/4")
Motor Speed	13 rpm
Duty Cycle	3 min on 15 min off
