SSC-TI-26200-10	SSC-TI-262- 17 - 10	262	6'7"	21'10"	17	17
SSC-TI-28600-11	SSC-TI-286- 17 - 11	288	6'7"	23'10"	17	17
44" Maximum Diameter	Model#	QTY.				
SSC-TI-13600-5	SSRT-TI-147 15 - 4	52	9'	12'3"	15	15
SSC-TI-16000-6	SSRT-TI-181- 15 - 5	65	9'	15'2"	15	15
SSC-TI-18700-7	SSRT-TI-213 15 - 6	78	9'	17'8"	15	15
SSC-TI-21100-8	SSRT-TI-243- 15 - 7	91	9'	20'2"	15	15

Tire Capacity is based off an average width of a tire, so total capacity is going to fluctuate.

Voltage Options: 208 * 230 * 460 Volt all 3 Phase requirement

Widths: Can do widths in 1 foot increments from 6' overall up to 20' overall maximum

Safety Keypad to allow authorized use only by means of 4 digit code

We go by OD of tires to determine what carrier type to use. There are three (3) carriers types:

- 1- 28" maximum diameter, will have an M at the end
- 2- 31" maximum diameter, will have an CL at the end
- 3- 33" maximum diameter, will have an L at the end
