Equipped with four 6" plate type casters; two rigid, two swivel with brake. "DH" is the measurement from the top of the fork to the top of the deck. 60513 Aluminum Strips can be added to the 0407 Oak Clamp Block to aid in gripping.

Construction

Lightweight but durable, each unit is constructed of primary-grade aluminum that is extruded on site, ensuring that our products are made with the best materials available.

Solid shelf tops are constructed using .125" thick, solid aluminum sheet metal, supported by 1" square tubing.

Shelves are sloped "back" towards the amplimesh sides; product stays on the cart during loading and transport.

- Carts are equipped with heavy-duty 6"x2" casters, two swivel with brake and two rigid to keep the cart rolling in a straight line.
- Lifetime Guarantee against rust and corrosion.
- One Year Guarantee against material defects and workmanship.
