Technical Specifications

Product Width	18"
Product Depth	24"
Gauge	18-gauge welded steel frame
Product Height	72"
Warranty	Lifetime warranty
Availability	4 - 5 weeks
Material	Steel
Color/Finish	Choice of 15 Standard Paint Colors
Assembly	Requires locker to base assembly
Product Weight	133 lbs
Country of Origin	USA

Product Overview

This firefighter turnout gear locker provides open-front storage for protective clothing, equipment, and personal gear in fire stations and emergency response facilities. Measuring 18" W x 24" D x 72" H, it keeps essential gear organized and readily accessible when personnel need to respond quickly. The locker includes a full-width shelf, one garment hanging rod, and a non-locking louvered drawer base for organizing hanging apparel and additional gear within one storage unit.

An 18-gauge welded steel frame with reinforced top and bottom construction provides durability for active station environments. The locker also features 1" slotted uprights, leveling glides, and a powder-coated finish available in 15 standard paint colors. Locker-to-base assembly is required. Key Features: Open-Front Access: Keeps turnout gear visible and readily accessible for quick response. Full-Width Shelf: Provides upper storage for helmets and other firefighter equipment.

Garment Hanging Rod: Accommodates turnout coats, protective clothing, and other hanging gear. Non-Locking Louvered Drawer Base: Adds convenient lower storage without restricting access with a lock. Welded Steel Construction: Features an 18-gauge steel frame with reinforced top and bottom construction. Choice of 15 Standard Paint Colors: The powder-coated finish is available in multiple colors to suit the surrounding space.

This firefighter turnout gear locker combines open access, hanging storage, shelf space, and a lower drawer base to help fire departments keep essential equipment organized in one dedicated location.
