Product	Turnout Locker with Key-Locking Drawer Base - 24" W x 18" D x 72" H - Steel
StoreMoreStore SKU	SMS-111-V25-WL-TL-K1-247218-K
Manufacturer Part Number	WL-TL-K1-247218-K

Technical Specifications

Product Width	24"
Product Depth	18"
Product Height	72"
Warranty	Lifetime warranty
Availability	4 - 5 weeks
Material	Steel
Color/Finish	Choice of 15 Standard Paint Colors
Construction	18-gauge welded steel frame
Assembly	Requires locker to base assembly
Upright Slots	1" slotted uprights
Leveling	Leveling glides included
Lock Type	Key-locking louvered drawer base
Product Weight	128 lbs
Country of Origin	USA

Product Overview

This open-front turnout locker with a key-locking drawer base provides organized storage for protective clothing, uniforms, gear, and personal equipment in public safety, emergency response, industrial, institutional, and other demanding facilities. The upper compartment includes a full-width shelf for helmets, folded items, or supplies and one garment hanging rod for coats,

uniforms, and other clothing.

The lower key-locking louvered drawer creates a separate, controlled-access space for personal belongings, tools, and smaller items. Measuring 24" W x 18" D x 72" H, the locker offers a wider open compartment for bulky gear while maintaining a relatively shallow footprint. Its reinforced top and bottom and 18-gauge welded steel frame support regular use in active facilities.

One-inch slotted uprights provide flexibility for positioning compatible interior components, while leveling glides help stabilize the locker on floors with minor surface irregularities. The locker and drawer base ship as separate components and require locker-to-base assembly on site. A choice of 15 paint colors allows the finish to coordinate with other equipment or facility standards. Key Features: Open-Front Gear Storage: Keeps frequently used clothing and equipment visible and readily accessible.

Key-Locking Louvered Drawer Base: Provides separate, controlled-access storage for personal belongings, tools, and smaller items. The key lock secures the lower drawer only; the upper gear compartment remains open. Full-Width Shelf: Provides overhead storage for helmets, folded clothing, supplies, or other gear. Garment Hanging Rod: Accommodates coats, uniforms, protective clothing, and other hanging items. 24" Locker Width: Provides additional lateral space for organizing bulky clothing and equipment.

18-Gauge Welded Steel Frame: Provides durable support for regular use in demanding gear-storage environments. Reinforced Top and Bottom: Add strength to the locker structure for long-term facility use. 1-Inch Slotted Uprights: Support flexible positioning of compatible interior components. Leveling Glides: Help keep the locker stable on floors with minor surface irregularities. Choice of 15 Paint Colors: Offers multiple finish options for coordinating with existing equipment or facility standards.

Locker-to-Base Assembly Required: The locker and drawer base ship as separate components and must be connected on site. This turnout locker combines accessible open storage with a separate key-locking drawer for items requiring controlled access. Its wider compartment, full-width shelf, garment rod, welded steel construction, and 24" W x 18" D footprint make it a versatile gear-storage solution for a wide range of facilities. The locker is made in the USA and backed by a lifetime warranty.
