Turnout Locker - 18"W x 18"D x 60"H - 18-Gauge Welded Steel

Product Identification

Product	Turnout Locker - 18"W x 18"D x 60"H - 18-Gauge Welded Steel
StoreMoreStore SKU	SMS-111-V25-WL-TL-K2-186018
Manufacturer Part Number	WL-TL-K2-186018

Technical Specifications

Product Width	18"
Product Depth	18"
Product Height	60"
Warranty	Limited lifetime warranty for the original purchaser while it owns and possesses the product, when installation is completed by a Certified Installer and proof of purchase is provided. Qualifying replacement parts are supplied for the product
Availability	4 - 5 weeks
Material	Steel
Gauge	18-gauge
Color/Finish	Choice of Standard Paint Colors
Assembly	Assembled
Leveling Glides	Included
Upright Slots	1-inch slotted uprights
Product Weight	80 lbs
Country of Origin	USA

Product Overview

This steel turnout locker gives fire stations, EMS facilities, and emergency response teams a dedicated, organized home for turnout gear and personal protective equipment. At 18"W x 18"D x 60"H, it provides a compact footprint that fits neatly into apparatus bays, gear rooms, and locker corridors without consuming valuable floor space. The welded 18-gauge steel frame

delivers solid, lasting construction, while a powder-coated finish resists the daily wear that comes with active-duty environments.

The locker ships fully assembled, so it is ready to put to work immediately after delivery. Leveling glides allow it to sit stable on uneven concrete floors, and 1-inch slotted uprights give the flexibility to configure interior accessories to match the specific storage needs of each user. Turnout lockers like this one are designed to keep gear off the floor, properly aired, and quickly accessible when every second counts.

The 18"W x 18"D footprint suits individual-bay installations or side-by-side runs along a wall, making it a practical choice for new construction, station renovations, or replacing aging gear storage. Available in a choice of standard paint colors, it can be coordinated with existing station furnishings or department color standards. Key Features: 18-Gauge Welded Steel Frame: Heavy-gauge construction stands up to the demanding conditions of active fire and EMS stations, providing long-term durability.

Compact 18"W x 18"D x 60"H Footprint: Fits individual bays or multi-unit runs without consuming excess floor space in busy apparatus rooms or gear corridors. Powder-Coated Finish: Provides a durable, cleanable surface that resists chipping and corrosion in high-use environments. 1-Inch Slotted Uprights: Allow interior components and accessories to be positioned at the heights that best suit each user's gear and equipment.

Leveling Glides Included: Keep the locker stable and level on uneven or sloped concrete floors common in station settings.

Ships Fully Assembled: Eliminates on-site assembly time so the locker is ready for immediate use upon arrival. This 18"W x 18"D x 60"H steel turnout locker is a practical, well-built solution for keeping protective gear organized, accessible, and off the floor.

Its assembled delivery, adjustable interior uprights, and choice of standard paint colors make it a straightforward fit for fire stations, EMS facilities, and emergency response environments that need reliable gear storage.
