Turnout Locker - 18"W x 24"D x 66"H - 18-Gauge Welded Steel

Product Identification

Product	Turnout Locker - 18"W x 24"D x 66"H - 18-Gauge Welded Steel
StoreMoreStore SKU	SMS-111-V25-WL-TL-K2-186624
Manufacturer Part Number	WL-TL-K2-186624

Technical Specifications

Product Width	18"
Product Depth	24"
Product Height	66"
Warranty	Limited lifetime warranty for the original purchaser while it owns and possesses the product, when installation is completed by a Certified Installer and proof of purchase is provided. Qualifying replacement parts are supplied for the product
Availability	4 - 5 weeks
Material	Steel
Gauge	18-gauge
Color/Finish	Choice of Standard Paint Colors
Assembly	Assembled
Leveling Glides	Included
Upright Slots	1-inch slotted uprights
Product Weight	100 lbs
Country of Origin	USA

Product Overview

Turnout lockers give fire stations, emergency services facilities, and public safety departments a dedicated, organized storage point for turnout gear and personal protective equipment. This locker measures 18"W x 24"D x 66"H, providing a tall, full-length compartment that keeps bulky gear off the floor and ready for a fast response. The welded 18-gauge steel frame delivers lasting

structural integrity, while the powder-coated finish resists everyday wear in demanding environments.

The locker ships fully assembled, so installation is straightforward and the unit is ready to put to work quickly. Leveling glides allow the locker to sit stable on uneven floors, and 1-inch slotted uprights offer configuration flexibility to suit your storage layout. A choice of standard paint colors lets the locker coordinate with existing facility decor or color-coded department assignments.

This turnout locker fits naturally into apparatus bays, gear rooms, and locker areas where reliable, purpose-built storage for protective equipment is a daily operational need. The tall 66" height accommodates full-length coats and pants, while the 24" depth provides room for helmets, boots, and accessories. Because the unit arrives assembled, facilities can deploy it immediately without requiring specialized installation tools or extended setup time.

The 1-inch slotted uprights allow hooks, shelves, or accessories to be positioned where they are most useful, supporting a workflow that keeps gear organized, inspectable, and ready at a moment's notice. Key Features: Welded 18-Gauge Steel Frame: Heavy-gauge welded construction provides a rigid, long-lasting locker body that holds up to the demands of daily public safety use.

Powder-Coated Finish: A durable powder-coat protects the steel surface against scratches, moisture, and corrosion in high-traffic facility environments. 1-Inch Slotted Uprights: Slotted uprights allow hooks, shelves, or accessories to be positioned at the heights that best suit the gear being stored. Leveling Glides Included: Adjustable leveling glides keep the locker stable and plumb on uneven or slightly irregular floor surfaces.

Ships Fully Assembled: Arrives ready to place and use, eliminating on-site assembly time and reducing installation complexity. Choice of Standard Paint Colors: Select from available standard paint colors to match facility standards or support color-coded department organization. This 18"W x 24"D x 66"H turnout locker is a practical, well-built storage solution for facilities that need dependable gear organization.

The welded steel construction, assembled delivery, and configurable slotted uprights make it a straightforward choice for apparatus bays, gear rooms, and locker areas where readiness and organization matter.
