Turnout Locker - 24"W x 18"D x 60"H - 18-Gauge Welded Steel

Product Identification

Product	Turnout Locker - 24"W x 18"D x 60"H - 18-Gauge Welded Steel
StoreMoreStore SKU	SMS-111-V25-WL-TL-K2-246018
Manufacturer Part Number	WL-TL-K2-246018

Technical Specifications

Product Width	24"
Product Depth	18"
Product Height	60"
Warranty	Limited lifetime warranty for the original purchaser while it owns and possesses the product, when installation is completed by a Certified Installer and proof of purchase is provided. Qualifying replacement parts are supplied for the product
Availability	4 - 5 weeks
Material	Steel
Gauge	18-gauge
Color/Finish	Choice of Standard Paint Colors
Assembly	Assembled
Leveling Glides	Included
Upright Slots	1-inch slotted uprights
Product Weight	98 lbs
Country of Origin	USA

Product Overview

A turnout locker built for demanding storage environments where gear needs to be organized, accessible, and protected. At 24"W x 18"D x 60"H, this locker offers a practical footprint for storing turnout gear, uniforms, or equipment in firehouses, public safety facilities, and similar workplaces. The welded 18-gauge steel frame delivers solid, lasting construction, and the

powder-coated finish resists wear while giving you a choice of standard paint colors to coordinate with your space.

The locker ships fully assembled, so setup is straightforward and your team can put it to use right away. Leveling glides keep the unit stable on uneven floors, and 1-inch slotted uprights allow interior configuration to suit the gear being stored. This locker fits naturally into locker rooms, gear staging areas, and equipment bays where organized, individual storage is a daily operational need.

The 60-inch height accommodates full-length gear, while the 18-inch depth keeps the unit from intruding into tight aisle spaces. When multiple units are needed, the consistent steel construction and color options make it easy to build a uniform, professional-looking installation across a room or bay. Key Features: 18-Gauge Welded Steel Frame: Heavy-gauge welded construction provides a rigid, durable enclosure that holds up to daily use in demanding environments.

Powder-Coated Finish: A durable powder-coat finish resists scratches and wear, and is available in a choice of standard paint colors to suit your facility. Ships Fully Assembled: Arrives ready to place and use, eliminating on-site assembly time and getting your storage solution operational faster. 1-Inch Slotted Uprights: Slotted uprights allow interior components to be positioned where they are most useful for the gear or equipment being stored.

Leveling Glides Included: Built-in leveling glides keep the locker stable and level on uneven or imperfect floor surfaces. This 24"W x 18"D x 60"H turnout locker is a practical, well-built storage solution for public safety and industrial facilities that need reliable, organized gear storage. Steel construction, a powder-coated finish, and a fully assembled delivery make it a straightforward choice for equipping a locker room or gear bay.
