Manufacturer Part Number	WL-TL-K2-247818

Technical Specifications

Product Width	24"
Product Depth	18"
Product Height	78"
Warranty	Limited lifetime warranty for the original purchaser while it owns and possesses the product, when installation is completed by a Certified Installer and proof of purchase is provided. Qualifying replacement parts are supplied for the product
Availability	4 - 5 weeks
Material	Steel
Gauge	18-gauge
Color/Finish	Choice of Standard Paint Colors
Assembly	Assembled
Upright Slots	1-inch slotted uprights
Leveling Glides	Included
Product Weight	111 lbs
Country of Origin	USA

Product Overview

This full-height turnout locker gives fire stations and emergency response facilities a dedicated, organized storage solution for turnout gear and personal protective equipment. Built from 18-gauge welded steel with a durable powder-coated finish, it stands 78" tall and provides a generous 24"W x 18"D footprint that accommodates bulky gear without crowding the bay floor. Available

in a choice of standard paint colors, it fits naturally into existing facility color schemes.

The locker ships fully assembled, so installation is straightforward and downtime is minimal. Leveling glides allow the unit to sit securely on uneven concrete floors, and 1-inch slotted uprights provide a flexible interior framework for organizing gear at the right height. Turnout lockers like this one are a practical fit for fire stations, EMS facilities, and emergency operations centers where quick access to personal protective equipment is essential.

The full 78" height accommodates hanging coats and pants together, keeping gear ready for rapid deployment. The welded steel frame and powder-coated finish hold up in the demanding environments typical of apparatus bays and gear rooms. Because the unit arrives assembled, facilities can place it into service without requiring on-site assembly labor. Key Features: 18-Gauge Welded Steel Frame: Heavy-gauge construction provides lasting durability in demanding fire station and emergency facility environments.

Full-Height 78" Design: Accommodates full turnout gear sets, keeping coats and pants together and ready for fast response. Powder-Coated Finish: Provides a hard, cleanable surface that resists wear and is available in a choice of standard paint colors. 1-Inch Slotted Uprights: Allow interior components to be positioned at the height that best fits the gear being stored. Leveling Glides Included: Keep the locker stable and level on uneven concrete or bay floors without shimming.

Ships Fully Assembled: Ready to place and use immediately, reducing installation time and effort. This 24"W x 18"D x 78"H steel turnout locker is a practical, ready-to-use storage solution for fire and emergency services facilities that need reliable, organized gear storage. The welded steel construction, powder-coated finish, and included leveling glides make it a dependable choice for apparatus bays and gear rooms where durability and quick access matter.
