Technical Specifications

Product Width	30"
Door Configuration	Double Door
Product Depth	18"
Product Height	60"
Warranty	Lifetime warranty
Availability	4 - 5 weeks
Material	Steel
Color/Finish	Choice of 15 Standard Paint Colors
Door Type	Louvered Doors
Assembly	Assembled
Hinge Type	Continuous Piano Hinges
Lock Type	Hasp Lock (Padlock Compatible; Padlock Not Included)
Center Divider Height	42"
Product Weight	200 lbs
Country of Origin	USA

Product Overview

This double-door personal wardrobe locker provides secure, organized storage for uniforms, clothing, equipment, go bags, and personal belongings. Measuring 30" W x 18" D x 60" H, the steel locker is well suited for employee locker rooms, industrial facilities, public safety departments, and other shared storage environments. Two louvered doors provide convenient access to the compartment while promoting airflow around stored contents.

The hasp-locking design supports padlock-secured storage, allowing the locker to be incorporated into facilities where users provide or are assigned individual padlocks. An internal 42" center divider helps separate clothing, equipment, and personal items for more organized storage. An 18-gauge welded steel frame, reinforced top and bottom, and continuous piano hinges provide the strength needed for dependable daily use.

One-inch slotted uprights accommodate flexible positioning of compatible interior components, while leveling glides help keep the locker stable on uneven floors. The powder-coated finish is available in a choice of 15 standard paint colors, and the locker ships assembled. Key Features: Double Louvered Doors: Provide convenient access across the locker while allowing air to circulate around stored clothing and equipment.

Hasp-Locking Design: Supports padlock-secured storage for uniforms, gear, and personal belongings. 42" Center Divider: Helps separate stored contents and maintain an organized interior arrangement. 18-Gauge Welded Steel Frame: Provides durable support for regular use in locker rooms, industrial facilities, and public safety environments. 1" Slotted Uprights: Allow compatible interior components to be positioned to suit different storage requirements.

Continuous Piano Hinges: Support the doors along their full height for smooth operation and lasting durability. Leveling Glides: Help stabilize the locker on floors that are not perfectly level. Choice of 15 Standard Paint Colors: Provides multiple finish options for coordinating with facility interiors or departmental color schemes. Ships Assembled: Arrives assembled to reduce preparation and setup time.

This double-door personal wardrobe locker combines ventilated storage, padlock-compatible security, and a divided interior in a durable steel unit. Its 30" W x 18" D x 60" H configuration provides organized storage for clothing, equipment, and personal belongings without limiting the locker to a single industry or application.
