Technical Specifications

Product Width	48"
Door Configuration	Double Door
Product Depth	18"
Product Height	60"
Warranty	Lifetime warranty
Availability	4 - 5 weeks
Material	Steel
Hinge Type	Continuous Piano Hinges
Lock Type	Programmable Electronic Lock
Center Divider Height	42"
Color/Finish	Choice of 15 Standard Paint Colors
Assembly	Assembled
Product Weight	250 lbs
Country of Origin	USA
Door Type	Louvered Doors

Product Overview

This double-door personal wardrobe locker provides secure, organized storage for uniforms, clothing, equipment, go bags, and personal belongings. Measuring 48" W x 18" D x 60" H, its deeper configuration provides additional room for bulky gear and equipment. The locker is well suited for personnel in industrial facilities, employee locker rooms, public safety departments, military facilities, and other demanding environments.

Two louvered doors promote airflow while providing convenient access to the entire locker compartment. The interior includes a full-width shelf for items that need to remain readily accessible and a garment hanging rod for uniforms, coats, or other hanging clothing. A 42"-high vertical center divider separates the interior into distinct storage areas, while two adjustable half shelves provide flexible space for folded clothing, footwear, bags, equipment, and personal items.

The welded steel construction provides the strength needed for regular use in busy facilities. Continuous piano hinges support the doors along their full height for smooth operation and lasting durability. An integrated programmable electronic lock helps control access to the locker's contents without requiring a user-supplied padlock. The locker weighs 250 lbs, ships assembled, and is available in a choice of 15 standard paint colors.

Key Features: Double Louvered Doors: Provide broad access to the locker interior while allowing airflow around stored clothing and equipment. Programmable Electronic Lock: Provides controlled electronic access to uniforms, equipment, and personal belongings. Full-Width Shelf: Provides convenient upper storage for bags, folded clothing, equipment, and other personal items. Garment Hanging Rod: Keeps uniforms, coats, and other garments organized and ready for use.

42"-High Vertical Center Divider: Separates the interior into distinct areas for more organized hanging and shelved storage. 2 Adjustable Half Shelves: Allow part of the interior to be configured for folded clothing, footwear, supplies, or equipment. Continuous Piano Hinges: Support the doors along their full height for smooth operation and long-term durability. Welded Steel Construction: Provides dependable strength for personnel, gear, and personal storage in demanding environments.

Choice of 15 Standard Paint Colors: Allows the locker to coordinate with existing facility interiors or departmental color schemes. Ships Assembled: Arrives assembled to reduce preparation and setup time. This double-door personal wardrobe locker combines hanging space, adjustable shelving, ventilated doors, and programmable electronic security in one organized steel unit. Its 18" depth provides additional storage capacity for bulky uniforms, equipment, bags, and personal belongings.

The locker is made in the USA and backed by a lifetime warranty.
