

Dunnage Rack

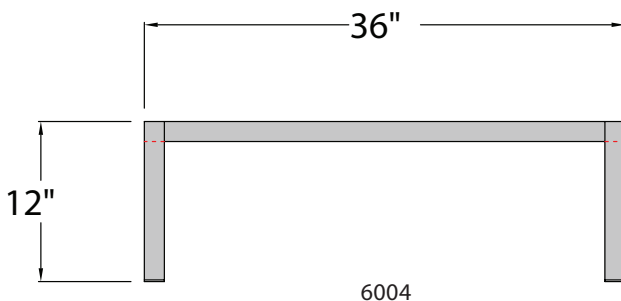

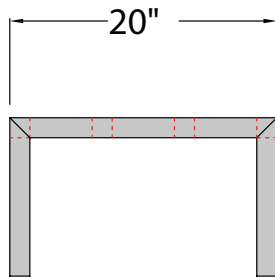

-6000 Series

6000 Series - Dunnage Racks

Legs are sealed with plastic caps.

The 6000 Series Dunnage Racks are positioned on legs for elevation, keeping food off the ground for sanitary storage. Racks accommodate between 1,500 and 2,000 pounds and can be used to hold containers of vegetables as well as bags of dry ingredients.

Its framework is constructed of strong wall tubing, and the unit is made of aluminum to provide resistance to corrosion. Because it's welded, it has no crevices or creases that can harbor debris or bacteria. This unit's horizontal slats facilitate uniform airflow.

- Framework is constructed of 1½" x 1½" x .070" wall tubing.
- The legs are sealed with plastic caps.
- One-Year Guarantee against material defects and workmanship.
- Lifetime Guarantee against rust and corrosion.
- NSF Certified.

► Dunnage Rack - Standard
