Open Weapon Rack - 42" W x 15" D x 83" H - Holds 24 Rifles with 2 Shelves

Product Identification

Product	Open Weapon Rack - 42" W x 15" D x 83" H - Holds 24 Rifles with 2 Shelves
StoreMoreStore SKU	SMS-911-V25-AWR83-24R-1
Manufacturer Part Number	AWR83-24R-1

Technical Specifications

Product Width	42"
Capacity	24 Rifles
Product Depth	15"
Product Height	83"
Warranty	Lifetime warranty
Availability	4 - 5 weeks
Material	Steel
Gauge	16 and 18 Gauge Steel
Number of Shelves	2
Shelf Adjustment	1" Centers
Color/Finish	Choice of 15 Standard Paint Colors
Assembly	Unassembled
Product Weight	235 lbs
Country of Origin	USA

Product Overview

This open weapon rack provides organized, accessible storage for up to 24 rifles in armories, law enforcement facilities, military installations, and other controlled-access weapon rooms. Two vertically stacked shelves provide additional space for related equipment and supplies within the same upright unit. Measuring 42" W x 15" D x 83" H, the rack consolidates long-gun storage

while making efficient use of available floor space.

Because it provides open rather than enclosed storage, the rack is intended for installation within a secured room or facility. Constructed from welded 16 and 18 gauge steel, the rack is built for regular use in demanding weapon storage environments. Storage components can be positioned on 1" vertical centers, providing flexibility for arranging the included components. The rack includes a base and leveling glides and can be mounted back-to-back with another unit or bolted to wall studs.

Security screw holes in the back panels help secure the installed components. A choice of 15 paint colors allows the finish to coordinate with other equipment in the facility. The rack ships unassembled and requires on-site assembly. Key Features: 24-Rifle Capacity: Organizes up to 24 rifles in one upright storage unit. 2 Shelves: Two vertically stacked shelves provide additional storage space for related equipment and supplies.

Open-Access Design: Supports clear visibility, inventory checks, and direct access inside a controlled-access weapon room. Welded Steel Construction: Manufactured from 16 and 18 gauge steel for durability in armories and other demanding facilities. 1" Vertical Centers: Allow storage components to be positioned in 1" increments for configuration flexibility. Multiple Installation Options: Can be mounted back-to-back with another rack or bolted to wall studs.

Component Security Screw Holes: Back panels include holes for securing installed storage components. Leveling Glides: Help stabilize the rack on floors with minor surface irregularities. Choice of 15 Paint Colors: Offers multiple finish options for coordinating with the surrounding facility. Unassembled Shipment: Ships unassembled and requires on-site assembly.

Designed for secured armories and controlled-access equipment rooms, this open weapon rack combines storage for 24 rifles with two shelves for related items. Its open layout, welded steel construction, narrow footprint, and flexible installation options provide an efficient way to keep long guns and equipment organized and ready for inventory or issue.
