

Universal Stacker

For Hospital Beds, Cribs, Wheelchairs, Carts & More

The Universal Storage Stacker provides hospitals and rehab centers with a scalable, flexible solution for safely storing multiple hospital beds and more. By utilizing vertical space, facilities can reduce corridor storage, free up valuable floor space, and support compliance with Joint Commission means-of-egress requirements.

✓ Key Features

- 2–5 vertical storage levels, up to 1,000 lbs. per level
- Flexible to fit beds, wheelchairs, and med-tech carts
- 24"–36" level spacing, adjustable on 2" increments on 2, 3, and 4-tier models
- Front or side loading configuration
- Seismic anchoring package available
- Adjustable wheel stops and loading ramps
- Color-coded up/down controls
- Safety-rated dual floor sensors and light curtain
- Keyed emergency stop and lockout
- Built in the USA — Factory Direct
- UL-certified electronics
- NEMA L14-20 locking plug on 220V models
- Anti-microbial powder coat finish

Part Number	Description	Unit Height	Unit Width	Unit Depth	Storage Levels	Clear Height	Clear Width	Clear Length	Weight Capacity
Front (long way) - Side (short way)
